NEW ERA COLORADO Shares Their Expertise with League! Emma Marion, Boulder Project Manager

12:30pm – 2pm

New Era Colorado Foundation is an innovative vehicle for hands-on democracy.

They engage, educate, and train a new generation of active citizens and young leaders in Colorado.

They provide the resources and tools for young people to gain collective power in the political process.

They're grassroots. They're nonpartisan.

And they're all about empowering young people to lead Colorado not left, not right, but forward.

They do it all with one constant: making politics fun again. And yes, it's often on a bus.
